## SUMMARY

Highly motivated and dedicated Computer Science, Machine Learning, and Artificial Intelligence student with a passion for leveraging technology to solve complex problems. Strong background in programming, algorithms, and data analysis. Equipped with a solid foundation in computer science principles and a deep understanding of machine learning and artificial intelligence techniques. Seeking opportunities to apply my skills and knowledge in a dynamic and innovative environment.

## SKILLS

- Python
- TensorFlow
- R Programming

## PROJECTS

- High-Rise Shiner:**
- Highly sophisticated and intelligent glass cleaning rover for high-rise buildings.
  - Employs ML to analyze surface for cracks and crevices..
  - Potentially applicable for building maintenance.

## COURSES

**Ethical Hacking , IIT Kharagpur**  
Jan 2023 - Apr 2023  
Computer networking, TCP/IP protocol stack, vulnerability scanning, system hacking, cryptography, and Metasploit framework.

## LANGUAGES

<b>English:</b> First Language		
<b>Kannada:</b>	C2	<b>Hindi:</b> B2
Proficient		Upper Intermediate

## ACTIVITIES

- **Volunteering**  
NSS Volunteer  
2022-Present

## HOBBIES AND INTERESTS

- Gaming
- CAD Designing
- Investing
